

R1000 Recirculator Specifications:

- > Factory set at 50 psi adjustable to 80 psi
- > 14,000 BTU
- > 115 or 230 VAC / 1 ph-50 / 60 Hz
- > 5.6 / 2.8 amp: 60 Hz
- > Dimensions: 23" L x 11" W x 14.75" H
- > 1/4" FPT (water in / out) with 5/8" LH Standard Inert Gas Fitting
- > 8 foot power cord.
- > Thermal overload
- > Visible water level / water flow sight glass
- > Net weight: 42 lbs/19 kg
- > 3 gallon reservoir
- > Foam packed for UPS shipment

R1000: Rotary GEAR Pump (only)

- > 1.8 gpm at 50 psi
- > Built in by-pass to tank
- > Rebuildable Pump (Repair Kit Product No. P5001)

System Features:

- > Stainless steel construction eliminates coolant contamination due to electrolysis or chemical reactions.
- > All units are plumbed with copper tubing and reinforced hose.
- > New extended life pump.
- > No external plumbing is required because of closed loop water system.
- > A water level float gauge and filler cap are combined in a single unit multi-purpose sight glass which enables operator to observe return water at a distance.
